PROFESSIONAL SUMMARY

Backend Software Engineer (SDE-2) with 4+ years designing scalable, high-availability distributed systems and microservices in Java and Spring Boot. Expertise in event-driven architecture (Apache Kafka), cloud-native deployments (Docker, Kubernetes, Amazon Web Services), RESTful API design, and relational/NoSQL databases — serving 50,000+ daily transactions at 99.95%+ uptime. Proven record of leading Scrum teams, driving 45–80% performance gains, and maintaining 85%+ code coverage via Test Driven Development (TDD) with strong foundation in System Design (HLD/LLD) and SOLID principles.

TECHNICAL SKILLS

Languages	Java (Primary) · Python · C++ · SQL · Bash
Frameworks & Libraries	Spring Boot · Spring Cloud · Spring Data JPA · Spring MVC · Spring Security · Hibernate · JUnit 5 · Mockito · OAuth2 / JWT
Architecture & Backend	Microservices · Distributed Systems · Event-Driven Architecture · RESTful APIs · Concurrency · High Availability · System Design (HLD / LLD)
Databases	MySQL · PostgreSQL · Oracle SQL · MongoDB · Redis · DB2 · H2
Cloud & DevOps	Amazon Web Services · Docker · Kubernetes (K8s) · Jenkins · CI/CD Pipelines · Prometheus · Grafana · Liquibase · Linux
Tools & Practices	Git / GitHub · Maven · Swagger / OpenAPI · Postman · IntelliJ IDEA · Jira · TDD · Agile / Scrum · Design Patterns · OOP

PROFESSIONAL EXPERIENCE

PayU Digital Labs Pvt. Ltd. · Software Engineer — Mar 2026 – Present | Bengaluru, IN

- Architecting **fault-tolerant token lifecycle management** microservices for PCI-DSS–compliant Token Vault (Java, Spring Boot) — card tokenization/detokenization across 50+ merchant and payment aggregator integrations with **zero-downtime deployments**.
- Designing high-throughput Kafka event-driven payment infrastructure on Kubernetes with horizontal pod autoscaling — targeting **99.99% uptime SLA**.
- Hardening API security and observability via Spring Security + OAuth2/JWT and Prometheus + Grafana dashboards — **reducing MTTR by 40%**.

HCLSoftware · Senior Software Engineer — Aug 2022 – Mar 2026 | Bengaluru, IN

- Designed and delivered 10+ production RESTful APIs (Java, Spring Boot, Microservices) serving **50,000+ daily transactions** at 99.95% uptime — enforcing SOLID/OOP/GoF Design Patterns **cutting defect rate by 30%**.
- Led 5-engineer cross-functional Scrum team to re-architect HDFC Bank's End-of-Day reporting pipeline; introduced resource-aware job sequencing and Oracle-level parallel execution — **slashing report generation time by 80%** and eliminating overnight SLA breaches.
- Engineered Kafka event-driven orchestration (HCL UnO) automating 100% of manual job/job stream triggers — **tripling throughput to 150,000+ events/day** with **zero message loss**.
- Introduced PostgreSQL support in HCL Workload Automation **(+40% SQL compatibility, 200+ tables**) and MongoDB-based document workflows in HCL
- Universal Orchestrator (10,000+ docs/day); migrated billing pipeline to REST microservice **cutting processing time by 45%.**
- Established Jenkins + Docker CI/CD pipelines compressing release cycles 2 hrs → 20 min (**6× faster**); enforced Test-Driven Development (TDD) via JUnit 5 / Mockito — **85%+ coverage**; resolved **350+ defects** sustaining **99.9% system stability**.

PROJECTS

Finvista Nexus *Spring Boot · Microservices · MySQL · Docker · OAuth2 · Spring Security · JUnit 5* — 2024

- Architected cloud-native banking microservices platform (Cards, Loans, Accounts) with API Gateway, Config Server and Eureka Server; secured inter-service calls via Spring Security + OAuth2 JWT; containerized on Docker Hub with **95%+ test coverage** and full Swagger / OpenAPI documentation.

Project Chess *Java · Swing / AWT · OOP · Design Patterns · SOLID* — 2024

- Built fully-featured Java chess engine with Swing/AWT GUI applying SOLID principles and Strategy, Factory, Observer patterns — complete game logic: check/checkmate, castling, en passant, pawn promotion.

EDUCATION

National Institute of Technology, Warangal (NIT-W) — 2020 – 2022
M.Tech, Construction Technology & Management · GPA: 8.07 / 10

NSUT West Campus, GGSIPU — 2016 – 2020
B.Tech, Civil Engineering · GPA: 8.40 / 10

CERTIFICATIONS & ACHIEVEMENTS

- Master Microservices with Spring Boot, Docker & Kubernetes — Udemy
- Spring Boot 3, Spring 6 & Hibernate — Udemy (Jun 2024)
- Docker: From Zero to Hero — Udemy (Aug 2024)
- GATE CE 2020 · All India Rank 3770 · 97th Percentile · Score 586
- Gold Medal — Geotechnical Engineering Lab Exam, IIT Bombay 2018 · Top 5%
